

# Israel Seeks Talks On Peace Proposal

TEL AVIV (AP) — Foreign Minister Abba Eban proposed today that Israel and Egypt send delegates to "an agreed place" to discuss procedures unconditionally for later peace talks.

Addressing the Knesset, Israel's parliament in Jerusalem, Eban said preliminary talks could be of "the most unofficial nature."

Such contacts could "prepare the ground for a real negotiation which is the only exit from the present conflict," he said.

Eban's statement was regarded as significant in that it constitutes acceptance of an element understood to be in the latest U.S. proposal for a Middle East settlement.

This proposal, by Secretary of State William P. Rogers, calls for Arab-Israeli contacts under the auspices of Swedish diplomat Gunnar Jarring, a U.N. special envoy.

Also notable was Eban's omission of the phrase "direct negotiations," with regard to the preliminary talks.

This appeared to be a softening of the Israeli stand, which has been adamant that any talks should be face to face, without intermediaries. This has been unacceptable to the Arabs.

The minister also reaffirmed Israel's acceptance of the cease-fire as stipulated by the U.N. Security Council in 1967.

This was seen as a veiled reminder to Rogers that Israel would accept no cease-fire limited in scope and duration but only a total and unconditional truce, was called for by the Security Council. Washington is believed proposing a three-month cease-fire.

Eban blasted the latest Soviet peace proposals as "designed to endanger Israel's security and

## Committee May Suggest New Contract Controls

WASHINGTON (AP) — The Senate Armed Services Committee will recommend tight new controls on the way the Pentagon pays defense contractors traveling the financially risky road of research, sources say.

These sources, close to the committee's work, calculate the changes could mean a \$100 million cut in funds for private industry research, which last year cost at least \$759 million for running IR&D, B&P and OTE. Those aren't railroads. The in-

itials stand for Independent Research and Development, Bid and Proposal and Other Technical Effort—the three categories of the Pentagon's program covering reimbursement for private technical effort expenses.

Although no one knows for certain where the road leads until it gets somewhere, research conductors contend derailment of the IR&D, B&P and OTE would be a disaster for them and for the future security of the nation.

This once-obscure system for carrying researchers on otherwise financially impossible trips into unknown realms has become a source of increasing concern among economy-hunters.

Following lengthy hearings by a Senate subcommittee headed by Sen. Thomas J. McIntyre, D-N.H., the Armed Services Committee has prepared proposals for new controls aimed at improving the research program.

## Agnew Shows Pessimism Over Paris Negotiations

WASHINGTON (AP) — Vice President Spiro T. Agnew says there is little hope President Nixon's new ambassador to the Paris peace talks will be successful as long as Hanoi demands nothing short of "the flat abandonment of South Vietnam."

While pessimistic about Ambassador David K. E. Bruce's immediate chances when he takes over as chief U.S. negotiator at the talks next month, the vice president, in an interview with the Associated Press, forecast an eventual settlement from the conference.

That will come, Agnew said, when the North Vietnamese "find that there is no advantage to them in continuing the struggle," and accept reasonable terms at the peace table.

In an interview aboard Air Force Two, a jet transport without windows in its passenger compartment, Agnew talked of the office he holds, the administration he serves, and "the Fulbright clause in the Senate."

Agnew used the designation for Senate Republicans as well as Democratic critics of Nixon

policy, particularly the U.S. attack into Cambodia.

"They have been harmful because obviously it is a point of great comfort to the North Vietnamese and the Viet Cong to find that there are people in high elective offices who question the efficacy of the American presence in Southeast Asia," he said.

Here is a portion of the interview:

Q: Since that incursion, the scope of the fighting seems to have spread through most of Cambodia. Can you foresee a situation in which more and more U.S. troops could be pulled out, yet the scope of the fighting could spread and continue in Indochina?

A: I don't think that statement that since the Cambodian incursion the war has spread is accurate. The war spread immediately before the Cambodian incursion because of the belligerent action of the North Vietnamese in attempting to seal off a corridor to the sea, subsequent to Sihanouk's leaving the country and a new government coming into control.

And I think that when you look at the Cambodian situation you must never forget that there'd be no war in Cambodia had there not been 40,000 North Vietnamese troops illegally in that country utilizing the sanctuaries.

## Schedule Drug Case Hearings

Three local drug cases have been scheduled for court hearings this month.

Two St. Louis area youths were arraigned Monday on charges of possessing narcotic drugs and a preliminary hearing was set for July 30.

The two, Steve A. Steele, 17, St. Charles, and Larry B. Brown, 21, Florissant, were arrested early Saturday morning by State Trooper Joe Dayringer and Deputy Sheriff Orval Lewis near the intersection of East Highway 50 and Route C.

Sheriff Emmett Fairfax reported that the youths were carrying three duffel bags of freshly cut, uncured marijuana weighing approximately 69 pounds.

Steele and Brown are in the Pettis County jail in lieu of \$10,000 bail. Judge Frank T. Armstrong indicated that an attorney would be appointed to represent the youths at the preliminary hearing if necessary.

A preliminary hearing in another drug case has been set for Albert E. Chidester, Jr., 19, who is charged with possession, sale and transportation of a hallucinogenic drug.

Chidester will appear before Magistrate Court on July 23. The Circuit Court appointed attorney John McCloskey to represent Chidester, who did not have a lawyer at his first hearing.

Chidester was arrested by city

## Nixon Frightens Chet Huntley

NEW YORK (AP) — NBC television newscaster Chet Huntley, reminiscing in a Life magazine interview, says that of the presidents he was around he liked Lyndon B. Johnson best.

"He was kind to me," he said. "As insufferable as he could be, he was a gracious and funny man at ease. I never tried to argue with him. I just kept filling his glass with Scotch and we talked about breeding Herefords."

Huntley, who will retire Aug. 1 after 14 years with partner David Brinkley, also commented on President Nixon:

"I've been with Nixon socially; I've traveled with him in his private plane; I've seen him under many conditions. The shallowness of the man overwhelms me; the fact that he is President frightens me."

Chet Huntley

Of the vice president he said: "Spiro Agnew is appealing to the most base of elements." Network coverage "almost created him, for God's sake," Huntley said. "I resent being lumped in with his Eastern Establishment effete intellectuals."

He also offered these views:

— "Covering the astronauts was an exercise in boredom. The networks all got trapped. Most astronauts are dull as hell, nice guys, mechanics. The only ones who had a mind of their own didn't last long."

— "It deeply concerns me that 55 per cent of the American people are getting most of their news from TV. These are people who, for the most part, are being confronted with news for the first time. And these are the people who form the Agnew clique."

## Coal Strike Is Thwarted

CHARLESTON, W. Va. (AP) — Plagued by federal court restrainers and lack of support from allies of slain Joseph Yablonski, dissident pensioners had little apparent success early today in spreading a strike through the five-state Appalachian coal fields.

At least 10 West Virginia soft coal mines employing some 3,000 men were shut down early today in Wyoming County when picket lines went up. Five of those mines belonged to Consolidation Coal Co. and Eastern Associated, two of the six companies granted temporary restrainers last week.

However, the work stoppage failed to spread significantly beyond Wyoming County, although

coal associations in southern West Virginia said they had reports of several mines shut down in Virginia and Kentucky.

The United Mine Workers (UMW) Union urged its members to ignore the picket lines established by the Disabled Coal

Miners of Southern West Virginia. In at least three cases workers crossed picket lines at midnight and reported for work.

In Pennsylvania, where some 8,000 miners supported a similar effort three weeks ago, all mines are reported working.

Delmer Brown, of Delbarton, W. Va., Yablonski's running mate in last December's UMW elections, said he wasn't actively supporting the strike call either. He added, however, that he wouldn't oppose the effort.

## Enemy Casualties Heavy Near Khe Sanh Conflict

PHNOM PENH, Cambodia (AP) — Cambodian forces battled west and north of Phnom Penh today while allied forces claimed more than 400 North Vietnamese killed in five days of attacks near Khe Sanh, in the northwest corner of South Vietnam.

A Cambodian military spokesman said a relief force of U.S.-trained mercenaries was battling an estimated 1,000 North Vietnamese and Viet Cong who on Saturday overran the mountain resort of Kiri Rom, 50 miles west of Phnom Penh.

The spokesman claimed at least 50 of the enemy were killed in fighting Sunday and said the only government casualties reported were 24 wounded Saturday and Sunday.

During the night, the spokesman said, South Vietnamese AC47 gunships attacked suspected enemy positions, and today the enemy force hit the Cambodian troops with mortar and infantry attacks.

Kiri Rom sits atop a 2,000-foot mountain and before the war was a playground of the wealthy seeking a cool climate. The town itself appears to have no military significance.

The spokesman also reported that an enemy raiding party broke through government de-

fenses at the Long Vek munitions depot 30 miles north of Phnom Penh, but a government counterattack pushed it out. No casualties were reported on either side.

The government says it stripped the sprawling arsenal

when Viet Cong and North Vietnamese forces began a buildup in the area several weeks ago.

In South Vietnam, government forces reported killing 33 North Vietnamese troops in scattered clashes and finding 26 more bodies.

## House Reform Measure Reaches Debate Stage

WASHINGTON (AP) — A major House reform bill reached the floor today, giving critics of the present system a chance to clean away what they say are centuries-old cobwebs shrouding congressional procedures.

More than 100 changes in

House rules and procedures are expected to be considered before voting begins, probably Wednesday.

One of the proposals, backed by the Democratic leadership, takes away the cloak of secrecy from votes on amendments.

The reform bill sent to the floor by the House Rules Committee makes modest changes in a limited area. It is the amendments being offered that present the reformers their best chance of a thorough housecleaning.

Key provisions of the committee bill permit televised committee hearings, expand sources of congressional information and open the way for using computer services in Congress.

A bipartisan group of reformers has put together a 10-amendment package designed to end secrecy in voting and committee procedures, provide more time and information for debate and streamline House operations.

The key provision permits record votes on amendments. Now, in a custom dating back to colonial times, members are

counted as they vote but not identified.

Adoption of the amendment could have a far-reaching effect on House procedures. For one thing, it would produce much higher floor attendance when bills are being considered.

Now, on many occasions, millions of dollars are appropriated and major legislative decisions made with fewer than 100 of the 435 members participating in the anonymous votes.

Once the decisions are made the rest of the members troop over to answer the roll call on final passage.

The prospect of spending their afternoons on the House floor legislating dismays many members and a strong undercurrent of opposition to the amendment has built.

However, House Democratic Leader Carl Albert of Oklahoma and his party whip, Hale Boggs of Louisiana, have endorsed the proposal and, with a broad coalition of Republicans and Democrats pushing it, sponsors are

turians as a base from which they could launch attacks on South Vietnamese and American soldiers in South Vietnam.

Q: Is it politically feasible, possible, at this point, to reverse course if necessary and send more Americans into Vietnam?

A: Not only is it politically unfeasible, but it is directly contrary to the President's announced policy of withdrawing troops from Vietnam, a policy which he has successfully been carrying out and in which he has met every commitment that he has made thus far.

Q: If for some reason the President should decide it was necessary in effect to re-escalate, given the current state of the country, can we do that?

A: You can't face that kind of contingency because the possibilities, the shades of crisis, are unlimited. You can run all the way from a nuclear attack by some enemy or some enemy supported troops down to a simple escalation of guerrilla activity on the part of the North Vietnamese.

The President in responding to this type of question has been very clear in stating that it is his purpose to end the U.S. involvement in Vietnam as quickly as he can compatible with the right of the South Vietnamese to self determination.

But he has been unwilling to speculate about contingent situations that might take place in the years to come. Obviously we'd have no diplomacy at all if we had announced our contingent plans for everything that happens in the world in a military sense. You can't do this.

Q: Do you envision a situation whereby most if not all U.S. troops could eventually leave Vietnam yet the war itself would continue?

A: I don't think so, because if we are successful in getting U.S. troops out of Vietnam within a short time as we hope to be, the North Vietnamese will then find that there is no advantage to them in continuing the struggle, and I'm sure they will come to reasonable terms at the peace table. This is something they have been totally unwilling to do.

They have been totally intransigent. I hope Mr. Bruce will be successful where others have failed, but very frankly I can't be optimistic about the chances because we have made every initiative conceivable except the flat abandonment of South Vietnam and that seems to be the only thing they are interested in.

I heard Sen. Fulbright say on a television program that we really didn't want free elections. Well, that's a ridiculous statement. We've offered to go along with free elections and so have the South Vietnamese, supervised by an international body, but we absolutely refuse to topple the existing South Vietnamese government just for the purpose of enhancing North Vietnam prior to those elections.

## Police Report

A break-in at the Hamm's Beer distributorship, 1218 West Main, was reported to Sedalia police Sunday.

Among the items missing were two adding machines, a posting machine, a radio, tool box and contents, fire extinguisher, three cases of beer, three rolls of pennies and an electric shoe shine buffer.

According to police, entrance was gained through a window on the east side of the building. The thieves exited through an overhead door, which was left standing open.

Curtis Poort, Warrensburg, told police Sunday that an automatic tape player was stolen from his car while it was parked on a lot at Third and Lamine.

The tape player was pried off the car's dashboard, police said.

Dr. A. L. Miller told police Sunday that a metal canopy post, and the base of the post, at his office at 1803 West 11th had been damaged. An estimate of the damage was not available.

## Circuit Court

Elziah Cline, Jr., formerly of 212 East St. Louis, has filed a petition to vacate a five-year sentence for armed robbery he is presently serving in the state penitentiary.

Cline was sentenced July 3, 1969, by Circuit Court Judge Frank W. Hayes for first degree armed robbery. He had entered a guilty plea.

Cline allegedly robbed Wright Rank, 1315 East 13th, of \$25 March 21, 1969, in a parking lot next to the Pacific Cafe. Rank said his assailant fired a shot at his feet.

In his petition to vacate, Cline claims an unreliable witness delivered testimony and that the defendant's name was not mentioned in the information filed. He also argues that he waived his preliminary hearing without advice of council and that a police lineup was not in accordance with Missouri Law.

## Magistrate Court

The preliminary hearing for Leonard and Raymond Preismeyer, charged with cattle theft, has been adjourned until 1 p.m. Friday by Morgan County Magistrate Judge Will F. Berry.

Judge Berry, who is serving in the place of Judge Armstrong, who was disqualified from the case, ordered the adjournment so that additional testimony can be heard.

The Preismeyers allegedly stole three calves, valued at \$50 each, from the Francis and Harold Bryan farm in Hughesville June 15.

Israeli troops fought a running battle with Arab guerrillas in Lebanon during the day, and one Lebanese woman was wounded in the fighting, the military command announced.

The pursuit began when a guerrilla squad, which had infiltrated across the frontier, opened fire from Israeli territory on an Israeli army patrol west of Metulla in northern Galilee, a spokesman said.

The troops followed the ambushers into Lebanon and engaged them, the spokesman said. The wounded woman was taken to Israel for medical treatment. There were no details as to how she was hit.

Israeli troops also crossed the Jordan River and wrecked a Jordanian army cluster of bunkers and trenches used as a forward base by guerrillas, the Israeli military command announced.

A spokesman said at least four Jordanian soldiers were killed in the 2½-hour attack on the hilltop outpost just east of the river. Israeli losses were reported as one killed and eight wounded.

The spokesman said the Israeli troops opened fire from the barbed wire around the post, occupied it and blasted the bunkers and trenches before withdrawing with captured small arms.

Jordanian support units fired mortars at the position while it was occupied by the Israeli raiders.

## Vatican Meeting Possible

HONG KONG (AP) — American Bishop James E. Walsh, freed by Communist China three days ago after 12 years in prison, may be flown to Rome for a meeting with Pope Paul VI when the doctors decide he is fit to travel.

The plan to speed the 79-year-old Roman Catholic cleric to the Vatican was announced today by the Rev. John McCormack, superior general of the Maryknoll Order, of which Bishop Walsh is a member. Arriving from New York, he said the plan was his own and indicated he had not discussed it with the Vatican.

A hospital bulletin reported the bishop was "slightly stronger" after sleeping almost the entire night.

Earlier he had been showing signs of an adverse reaction to the excitement of his release.

After a light breakfast, the bulletin said, routine X-rays were made of his chest and back. No tests or treatments were planned for today, the report said, indicating the emphasis is on quiet and rest.

Pope Paul meanwhile sent a cable to Bishop Walsh congratulating him on his release.

In his weekly Sunday address to the noon crowd in St. Peter's Square, the Pope said the release of Bishop Walsh was "good news which awakens the memory for other persons and countries where legitimate freedom is impeded." He expressed hope that Peking's unexpected release of the bishop might be a sign of "better days for the religious freedom in that country."

Bishop Walsh talked by telephone Sunday with his brother and four sisters in Cumberland, Md., and told them their prayers and letters sustained him through his 12 years of captivity.

"I am very happy to be breathing free air again," he told them. "Everyone is being so wonderful to me."

"Jim's voice was so firm and clear," said one sister, Mrs. Frank Werner.

The papal nuncio to China, Archbishop Louis Accogli, arrived from Taipei today to see Bishop Walsh. Shortly after, Bishop Walsh said a concelebrated Mass in his hospital room with Archbishop Accogli, Bishop Francis Xavier Chen Ping Hsu of Hong Kong, Father McCormack and the regional superior of the Maryknoll Fathers, Father James Sullivan.

## Tax Appeals To Be Heard During Week

The Pettis Board of Equalization will be in session from 9 a.m. to noon every day this week, according to Presiding Judge Henry Lamm.

The board, which includes Lamm, Eastern Judge E. L. "Red" Bridson and Western Judge Zeb Thomas with Mayor Jerry Jones as ex officio member, hears appeals on real estate tax assessments.

County residents may appeal the rate assessed to their property by the county to the board and the judges will either uphold the tax rate or lower it.

Judge Lamm said he expected a heavy caseload this week.

Galilee and less than a mile from the river, was an operational base for terrorists attacking Israeli settlements in the Beisan Valley.

The raid apparently was in retaliation for rocket and mortar attacks for five days last week on collective farms in the area.

## World Watches As Woman Fails Test

Dear Ann Landers: How cruel can the news media get? A few days ago I heard on the radio that a woman who lives in London — and they mentioned her by name — failed her driver's license test for the 39th time. The poor thing had been trying for 11 years to pass and now she is giving up. She invested over \$700 on driving lessons, tutors and test fees which are required in England before one can take the examinations.

Can you imagine that woman's shame — after having failed so many times? And then to have it publicized all over the world must have destroyed her. To my way of thinking it is the most heartless thing I ever heard of. Why would they do it? — Sorry For Her

Dear Sorry: Everyone likes to

read of the unusual — and this story certainly qualifies. It also makes the people who have failed their driving tests three and four times feel better. I agree, however, it would have been just as well had they not mentioned her name.

Dear Ann Landers: I feel compelled to write in reference to "Hung Up" — the woman who didn't know whether or not to marry a man who hated her young daughter by a previous marriage. The poor kid happened to bear a striking resemblance to his ex-wife whom he despised.

I married for the second time seven years ago. My daughter was nine at the time. She was an image of her father, whom my husband loathed. I, too, thought love would conquer all.

Here is the way it turned out. My husband picks on her unmercifully. She hates him. The girl has turned from a smiling, pleasant person into a sullen, unhappy liar. I am constantly in the middle. Her stepfather never refers to her by name. It's always "your daughter."

The guilt I feel for bringing up this child in such a hostile environment is driving me crazy. If "Hung Up's" daughter is hiding in her room NOW, refusing to come out even for meals, I shudder to think of the future.

Unless the mother is willing to ditch the girl in a boarding school and then ship her off to Europe during summer vacations, she is in for a hell on earth. If she doesn't it will be hell for the girl. Either way the marriage is doomed. If the mother who wrote hasn't already made the trek to the altar I hope she changes her mind. — Too Late For Me, I Married Him

Dear Too Late: I received a surprising number of letters which read a great deal like yours. Most of the writers were women, but a few men had a similar story to tell about second wives who mistreated their children. How sad for all of them.

Dear Ann Landers: Please tell folks that when they see a person with a black eye not to ask, "What happened?" Anybody with half a brain can see that somebody probably hung on a haymaker.

And while you're at it, tell people that the jokes about shiners are not funny to the person who has one. I have had two in four weeks and I am sick of noisy questions and stale wisecracks. Thank you. — Ducked Too Late

Dear Duckie: Two in four weeks? A person who has that much trouble with his eyes must also have a problem with his mouth. If ten isn't enough, count to forty.

### DeMolays Attend Leadership Camp

KNOB NOSTER — A.J. Whiteside and Patrick C. Squires, both of Knob Noster, are among nearly 150 DeMolays and advisors currently attending Camp Trout, Mo., for the 1970 Midwestern DeMolay Leadership Camp.

A week of intensive leadership training, recreation and fellowship is featured, as well as discussions, lectures and panel presentations covering the many facets of the order. The young men compete in sports and take advantage of the many different recreational facilities available at the camp, which is located near St. Louis.

The Order of DeMolay is an international organization for young men 14 to 21 which is dedicated to the principles of building better citizens.

## Hollywood Car Racing Now 'In'

By BOB THOMAS  
Associated Press Writer  
HOLLYWOOD (AP) — In every era the film colony has had its own "in" sport. Now it's auto racing.

Polo was the rage in the 1930s, with Walt Disney, Will Rogers, Spencer Tracy and other notables playing before stellar crowds every Sunday. Then Charles Farrell's Racquet Club in Palm Springs helped make tennis the fashionable sport.

Bing Crosby and Bob Hope created the craze for golf, and hunting was furthered by such men as Clark Gable, Gary Cooper and Robert Taylor.

The trend toward speed cars will be demonstrated Aug. 9 with a pro-amateur Celebrity Invitational Race at the brand-new Ontario Motor Speedway. Among those already announced for the race are Paul Newman, Dick Smothers and director Roman Polanski, as well as astronaut Pete Conrad.

Other possibilities include Robert Redford, Clint Eastwood and James Garner. Steve McQueen would probably like to enter the race, which will contribute \$50,000 to the Motion Picture and Television Relief Fund. But he's in Europe making a movie about car racing.

What attracts the stars to the dangerous sport? David Lockton, president of the Ontario Speedway, offers this explanation:

"I may be prejudiced, but I think race drivers are the

heroes of the 1970s. Take a man like Mario Andretti. Last year he made over \$900,000—but he could be dead tomorrow.

"The superheroes of today—movie stars and astronauts—need heroes of their own, and they find such to admire in race drivers. Racing is also an excellent release from the tensions these superheroes are under."

"Paul Newman and I own a formula Ford, and we sometimes spend 12 hours racing around the track, one after the other. When we're done, we feel that we have put in a hard day's exercise. The mental relaxation is incalculable."

The Ontario plant, 40 miles east of Los Angeles, has Hollywood backing. During the formative stages Lockton discussed the project with Kirk Douglas. He was so impressed with the actor's ideas that Douglas was added to the board of directors. Dick Smothers is another member, and Newman is likely to be added.

The \$25.5-million raceway is taking shape amid the orange

groves of Ontario. After the preview with the pro-am celebrity race, the track will officially open with the California 500 on Sept. 6. The stadium is designed to seat 140,000 and Lockton hopes to fill it.

"We had three surveys made before we went ahead with the project," Lockton, 33, said. "Twelve million people live within a 150-mile radius of the track, nine million within 70 miles. And there is a greater density of auto racing fans in Southern California than anywhere else in the country."

But it's the nonfans that the track needs to attract, Lockton admitted, and the advertising is aimed at them. The track will be in use daily with tests, television commercials and tours; there will be 35-40 racing days. Is that enough to make the enterprise pay off?

"Yes," replied Lockton. "The California 500 itself is expected to gross \$83 million."

## Begin Earth Search For Moon-Type Rock

WASHINGTON (AP) — The 120 pounds of lunar samples brought back by the Apollo 11 and 12 moon missions have touched off a search for similar materials on earth, according to the National Aeronautics and Space Administration.

As the space agency has said before, the samples indicate no life exists on the moon, but scientists still are trying to determine why some plants grow better in lunar soil than in earth dirt, NASA said.

In a news release in anticipation of the July 20 anniversary of the first manned landing on the moon a year ago, NASA said:

"Although the gross chemical properties of the moon rocks resemble terrestrial volcanic

rocks in some respects, the lunar rocks have some highly significant differences such as an unusually high titanium content, an unusual distribution of rare earth elements, and low water content.

"The unusual properties have spurred on geologists here on earth to find similar materials."

"Already closer equivalents of lunar volcanic rocks are being reported from Idaho, Sweden, Brazil, and the mid-Atlantic Ridge."

More than 150 scientific groups in the United States and abroad are taking part in detailed analysis of the fine-grained lunar dust and the moon rocks. In many respects the lunar material is similar to lava flows of Hawaii and other areas.

"While there is ample evidence of high-speed impacts by meteorite particles on the moon, there do not appear to be major recent upheavals generated by the moon itself," the agency added.

"Exposure age determinations on lunar rocks indicate that they have lain within a few feet of the lunar surface for 200 to 500 millions of years."

"The effects of the meteorite impacts seem to be in the nature of a stirring action, or 'gardening,' of the lunar top soil."

The lunar rocks, and aluminum foil exposed to the sun by the astronauts, also have shown evidence of effects of bombardment by solar wind greatly in excess of predicted values, NASA said.

This has led one scientist to state that the proper way to study the sun is through samples collected from the moon, it added.

Laboratory studies have shown no ill effects of moon dust on earthly plants or animals, nor any sign of lunar life.

But "one effect not yet understood is the apparent high-nutrient value of lunar soil," NASA said.

"The growth of liverworts and similar plants in lunar material is significantly increased compared to growth of the same plants in earth material."

## Mercury Residues Alarming

WASHINGTON (AP) — One state may ask for federal disaster aid and others are growing alarmed with the discovery of highly toxic mercury in public waters in 14 states from New York to Texas.

The metallic chemical has forced fishing bans in some areas and prompted Alabama Gov. Albert Brewer to ask for federal aid after commercial fishing was ordered stopped on 51,000 acres of state water.

The pollutant is reaching dangerous levels, federal officials say, in the effluents from industries that produce plastics, paper, chlorine and sodium.

Mercury causes progressive brain damage, blindness, kidney disease and even death in some cases. And an added danger lies in its 100-year life expectancy.

The insanity it caused in the 19th century among hatters brought it the name "Mad Hatter's Disease." The hat makers were afflicted after their exposure to mercury in the process of shrinking felt fibers.

Its use as a fungicide on seed for grain crops has led to cases of high levels of mercury being discovered in hogs in New Mexico, cattle in Oregon and pheasants in Montana and California.

One federal official says "every place we look we are finding significant amounts of mercury." The search began only two months ago—they admit being taken in by a false belief the metal would not dissolve in water.

"We're only seeing the beginning of this problem," said an official of the Food and Drug Administration.

Mercury has been found in significant amounts in waters of Alabama, Georgia, Kentucky, Louisiana, Michigan, New York, New Jersey, Ohio, Pennsylvania, Tennessee, Texas, Vermont, West Virginia, and Wisconsin.

## Boyfriend Of Queen Saddened

MIAMI BEACH, Fla. (AP) — The new Miss Universe, Marisol Malaret Contreras, says one of the judges who chose her to represent Puerto Rico in the international beauty contest later became her boyfriend and is now a sad man.

He realizes, she told interviewers Sunday, that he isn't going to see much of her for the next year.

"Truly, he is sad. But I'm thrilled, and I think it will be the most wonderful experience of my life," the jade-eyed beauty said.

Garbed in a slinky navy velvet lounge dress, Marisol conducted her first news conference after five hours of sleep.

Refusing to disclose her beau's name, she said, "I enjoy his company and now that I'm Miss Universe I don't know what will happen between us. There sure won't be much time for dates."

Marisol, a secretary and part-time model, said both her parents are dead, and she is the sole support of the aunt who raised her and the 24-year-old brother, who has been crippled since birth.

Marisol's victory brought her \$10,000 in cash, a \$10,000 personal appearance contract, \$6,500 worth of furs, a wardrobe for a year, hairpieces, hosiery, luggage and cosmetics.

But Marisol said in her Spanish accented English:

"Now that I have won, it isn't the money that's important to me—it's the experience to come."

"Just being around all those girls from other places and different backgrounds has taught me a little about how people everywhere are basically the same."

"It was a beautiful feeling, and it showed me there is a real love power among human beings."

"So this year I want to give that love power to everybody I meet—just throw it around all over the world."

Happy Queen

Twenty-two-year-old Marcia Fern Mossbarger, Brookfield, Mo., seems overjoyed after being crowned Miss Missouri, Saturday. ## Miss Missouri Crowned

MEXICO, Mo. (AP) — Marcia Fern Mossbarger, brown-eyed blonde from Brookfield, Mo., will represent Missouri in the Miss America pageant in September.

The 22-year-old daughter of Mr. and Mrs. Lloyd Mossbarger of Brookfield was crowned Miss Missouri Saturday night from among 30 other contestants. She graduated this year from Northeast Missouri State College, and plans to start work on a master's degree this fall.

She was the only one of the five finalists who did not win a preliminary contest Thursday or Friday. She received a \$1,200 scholarship and a trip to the

Miss America program at Atlantic City, N.J.

The runners-up, in order, were: Brenda Kay Parsh, of Cape Girardeau, \$900 scholarship; Jill Marlene Fleetwood, Raytown, \$500 scholarship; Sandra Kay Asselin, Branson, \$300 scholarship; and Deborah Sue Riggs, Joplin, \$200 scholarship.

### Valuable Throwaways

Stop!  
Don't throw away those newspapers. Don't pitch those nonreturnable bottles into the trash can.

No, this isn't just another ecological plea (although there's some of that in this, too). It is a notice that there's money in them thar discards.

Seems a New Jersey paper company has developed a secret de-inking formula that has made old newspapers valuable again, relatively speaking. And the Glass Manufacturers Institute has opened a network of bottle-redemption centers in 21 states at which half-a-cent per bottle will be paid.

Old newspapers are now worth up to 70 cents per hundred pounds because the new de-inking process can make recycled paper financially worth-while for newsprint companies. Irvington, N.J., and Union, N.J., are already taking advantage of the income possible through salvaging old newspapers, thanks to the Garden State Paper Company's new process.

In Irvington, where 64,000 residents have been dumping an estimated 5,000 tons of papers each year (at a cost estimated at \$25 per ton for the refuse department to pick up), residents are now required by law to separate newspapers and place them at the curb twice a month. Various charitable organizations will pick up the bundles and receive the proceeds — from \$10 to \$14 per ton.

Union is supporting a continuing paper drive by the city's Boys Club, which gathers papers on Saturday. In its first month's collection, the club picked up 65 tons.

The Garden State Company reports that demand for processing old newspapers at its plants in Garfield, N.J., Pomona, Calif. and Alsip, Ill., has exceeded the supply. Recycled newsprint sells for \$7 a ton less than original newsprint, which goes for \$147 to \$152 per ton. The three Garden State mills produced 320,000 tons last year. This is only 11 per cent of the annual United States newsprint production.

Meanwhile, the Glass Container Manufacturers Institute hopes people will ignore the nonreturnable notice printed on many bottles and turn them into collection centers if one of those centers (almost 100 in the nation) is nearby. The glass industry can use reclaimed glass for 30 per cent of its total raw material consumption. Reground glass can be made into new bottles, and it is possible that crushed glass and asphalt may be used in a paving compound that Owens-Illinois, a leading glass manufacturer, is developing.

About 11 billion used bottles contribute each year to the nation's ground pollution program, the Institute estimates, so there are plenty of them to be reused. A redemption center in Los Angeles has taken in more than three million bottles since April.

### Washington Merry-Go-Round

#### Business Promises Fool Minorities

By Jack Anderson

WASHINGTON — The Nixon administration has used a public relations fraud to build up the hopes of blacks, Puerto Ricans and Mexican-Americans who dream of owning their own businesses.

The Commerce Department has publicized opportunities that do not exist and promised money that is not available. The glowing statistics put out by the Commerce Department have turned out to be based, in part on shaky figures and wishful thinking.

During the 1968 presidential campaign, Richard Nixon held out hope that the minorities could share in the full fruits of capitalism. He promised to help the people of the ghettos acquire their own shops. Conservative business sense could deal with poverty, he said, more effectively than could liberal pipe dreams.

Traveling salesman for the Nixon plan is Secretary of Commerce Maurice Stans, who has whirled through 10 cities gusted by a snowstorm of press releases. In troubled urban centers such as Harlem and Chicago, Stans has gathered together hundreds of blacks, Puerto Ricans and Mexican-Americans to tell of the opportunities awaiting them.

He has dangled before minority audiences \$301 million in federal funds that are supposed to be available this year to help them become businessmen. He has boasted of commitments the administration has gained from chain companies willing to franchise shops and stores to minority owners.

The program indeed offers opportunities for minority businessmen. But the prospects are neither as plentiful nor as golden as the official ballyhoo proclaims.

#### —Elusive \$301 Million—

All too often, those who pursue the government promises are rewarded only with false hopes. The \$301 million figure, for example, was never more than a public relations guess. This column has spent three weeks tracking down the funds that were supposed to make up the \$301 million. Our discovery: the actual amount available to promote minority capitalism had painfully shrunk.

The biggest cut of the \$301 million pie was supposed to be provided by the Small Business Administration, which was marked down for \$74.3 million in direct loans. The final figure for the

fiscal year, which ended on June 30, isn't yet available. But with only a couple of weeks unreported, the SBA had laid out only \$68.1 million. The agency had also made only \$81.7 million in guarantees, as contrasted with their trumpeted goal of \$144.4 million.

The Office of Economic Opportunity was put down for \$56 million of the \$301 million. But OEO officials say they spent only about \$37 million. Even these funds might have only "indirect" benefits to minority businessmen, acknowledged spokesman Tom Dowling, who said the funds "were not designed as a minority enterprise program."

At many agencies, the officials knew nothing about the funds they supposedly were contributing as their part of the \$301 million goal. The search for the correct figures often led reporters for this column into a hopeless bureaucratic quagmire.

#### —Royal Run-Around—

The Department of Housing and Urban Development, for instance, was down for \$4.3 million. My associate Teresa Black was referred from official to official, none of whom had any knowledge of the elusive \$4.3 million. She talked to nine officials, some of them twice.

Finally, Leonard Tambor's office in HUD's division of renewal insisted she should talk to Harry Speigel in the public affairs office, where the merry-go-round had begun several calls before. Speigel referred her to Ted Savage, another public affairs officer, who suggested she should call Harry Speigel.

When she protested that she had just talked to Speigel, Savage shouted across the room: "Hey, Harry! This is YOUR program!" Speigel then got hold of Howard Cayton, the Urban Renewal Demonstration director whose office Miss Black had already called. Cayton replied that he couldn't identify the \$4.3 million figure and referred her to still another official.

Back at the Commerce Department, spokesman Israel Rubin said the \$301 million figure was "just a goal," but he couldn't identify who had set the goal. "People come and go every few months around here," he explained. "I've only been here a few weeks myself."

Secretary Stans, on his whirlwind visits, preaches to the opportunity seekers out of a folder labeled "Minority Enterprise Profile." The folder is stuffed full of glowing facts prepared for him by the Office of Minority Business Enterprise Information Center. Copies of the summaries for several cities, marked "Not for Distribution, Official Use Only," have been examined by this column.

#### —Phony Figures—

The Chicago summary, for example, boasts "Twenty franchisors have committed more than 44 Chicago franchise opportunities. A check of the franchisor list, however, revealed that most had committed no specific number of franchises. Some weren't planning offerings in the Chicago area at all and had no idea how their names got on the list."

To cite one example, Bresler's Ice Cream was listed as having five locations ready for minority operators. Bresler's regional director Robert Perlman said the company hopes to recruit "qualified" minority businessmen but added cautiously: "I hate to use the word commitment. There is no certain number."

In New York City, Stans visited Harlem and the Puerto Rican community with pledges of 300 franchises from 38 companies. A check of several on the list revealed they, too, are trying to place minority businessmen but aren't committed to specific numbers.

OMBE's Walter Sorg talked enthusiastically to this column about minority franchising. About 2,000 franchises have been placed, he said, since the program began a year ago. He admitted that there had been a "slip up" in some of the statistics and that few franchisors had made "firm commitments." He also agreed that minority franchising isn't proceeding as rapidly as the Nixon Administration had hoped. But he blames the erratic economy and tight money.

### Collision Course

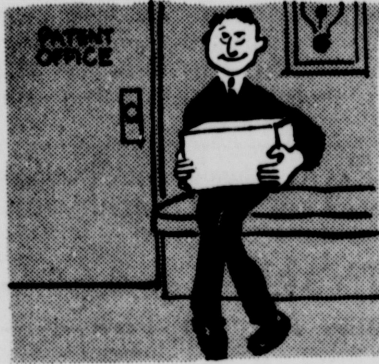

### THE FAMILY LAWYER

#### Peculiar Patents

Could you get a patent on an alarm clock that squirts cold water down a sleeper's neck? A man in Chicago did.

What about a balloon drawn through the sky by eagles? Or a stickpin made of candy, to be eaten after use? Or an automatic hat tipper for lazy gentlemen?

These, too, all won patents.

To the inventor's neighbors, such ideas might seem pretty silly. And our patent law does say that, for an idea to be patentable, it must be "useful."

However, in deciding what is useful, the law is very tolerant indeed. The law remembers (even if the neighbor's don't) that people laughed too at Alexander Graham Bell's first telephone and at the Wright brothers' first airplane.

True, you cannot get a patent on something that has no use at all. For example, an inventor claiming to have created a "perpetual motion machine" was turned down on this ground. The ruling pointed out that the machine could not possibly work, because it was contrary to the laws of nature.

Nor can you patent a device which is useful only to do evil. Thus, a court rejected a patent for a method of faking the appearance of tobacco leaves for the purpose of making them look better than they really were.

The judge said: "Congress did not intend to extend protection to (inventions) which confer no other benefit upon the public than the opportunity of profiting by deception and fraud. The invention must be capable of some beneficial use as distinguished from a pernicious use."

But for most inventors, the test of usefulness can be passed without too much trouble. The law generally takes the same optimistic attitude that Benjamin Franklin once took when he was asked:

"What is the use of this new invention?"  
Franklin's reply was:  
"What is the use of a new-born child?"

### THE WELL CHILD Pacifier Is Better Than Thumbsucking

By WAYNE G. BRANDSTADT, M.D.

Q—My daughter, 2, still has to have a pacifier when she sleeps. She loses it four or five times a night and I have to get up and find it for her. Her face around her mouth is broken out and I'm sure it is caused by the pacifier. I changed from a rubber to a plastic pacifier but this didn't help. What do you suggest?

A—A pacifier does beat thumbsucking. Most children give it up at about age 2. I would not refuse to let your daughter have her pacifier at bedtime but you should firmly refuse to retrieve it for her during the night. This will be rough on both of you at first but she must learn that others have rights, too, and the sooner she learns this the better.

Now that she has a few teeth you should take the pacifier away from her if she chews pieces out of it. The rash may indeed be caused by the pacifier. Your doctor can determine this by means of a patch test. Meanwhile, you may want to apply Valisone Cream, a prescription item, two or three times a day.

Q—I recently heard that

some mothers dip a pacifier in honey and give it to their babies to stop their crying. Do you approve?

A—This lazy habit is not recommended because it spoils the baby's appetite for essential foods and leads to tooth decay. These mothers should find out what is causing the baby to cry, remove the cause and give him an added dose of tender loving care.

Q—My daughter, 12, has a loose piece of cartilage in her knee joint which hurts her sometimes when she walks or bends her knee. What is the cause and what treatment do you advise?

A—In most cases no cause for these loose bodies can be found. The best treatment is surgical removal.

Q—Our son, 16, has popping of his knees, elbows and fingers when he bends them. What causes this and what can be done about it?

A—This is caused by a tendon snapping across a bony prominence. It is unusual to have so many joints involved. The condition is not serious but it can be controlled by avoiding sudden movements.

Oswald: "Some years ago, I watched a pretty good player struggling with a doubled contract. He was so sure that the doubler held all four missing trumps that he made a safety play to guard against that bad break after both opponents had followed to the first trump lead."

Jim: "That was more of getting a fixed idea and forgetting that you could change your mind after additional information."

Oswald: "Here is another example. I was South in a rubber bridge game. My bidding wasn't too scientific but my partner wasn't much of a player. I bid the slam by guesswork."

Jim: "You might well have been entitled to mark your partner with better than three high-card points. How did you make your contract?"

Oswald: "It wasn't as a result of my good play. West opened his king of spades. I took my ace and promptly led a heart toward dummy's queen. West went right up with his ace and played his queen of spades. This friendly play set up the rest of dummy's spade suit. I had nothing left to do except to draw trumps and pick up the marbles."

Jim: "The slam contract wasn't too bad on the surface but the combination of three trumps to the jack and diamond shortness in the East hand with four spades in the West hand doomed you to defeat without West's help."

Oswald: "It was all a matter of the fixed idea. West planned to set up his spade trick. His opening lead was fine but when he got in with the ace of hearts it really required just a little further study of the dummy to see that, if his queen of spades was going to be a winner, there would be no way for South to take it away from him and he could wait."

Jim: "Haste sure made waste for poor West!"

trolled by avoiding sudden movements.

Q—Our son, 5, eats well and is very active but he passes gas all day. Our family doctor says there is nothing wrong with him. What do you advise?

A—Cut down on his intake of potatoes, corn, beans, peas and rice. Such deforming drugs as Festal, Mylicon, Phazyme and Silain may be helpful.

### Moving?

By BETTY CANARY

"We're moving," my husband said. His words hardly came as a surprise. After all, we are part of that group known as Mobile Americans. However, when he made this announcement last May, we came to a firm decision.

"This time we are going to simplify things," I said. "Right!" he agreed. "We'll sort through all this stuff and finally get rid of the junk." This was the moment, the exact moment, when our eldest began referring to the move as "Operation: Not Again!"

While I took the dining room closet, Bob tackled the cubbyhole under the front hall stairs. I quickly filled my three boxes labeled, Save, Throw Away, Salvation Army. Just as I finished, he entered the room and gave a low wounded cry. Digging feverishly through the Throw Away box, he rescued three spotted ties, a jacket with no elbows and a broken zipper (last worn in 1953) and a May 1949 Esquire magazine.

"I'm married to a pack rat," I said, as he carefully added an old army shirt and a torn book ("Around the World with Beaker and Flask") to the pile.

He muttered something in reply but I couldn't hear him as I was busily going through his boxes out in the hall. As you might expect, he had thrown away my rare collection of chipped cups, the evening bag I had carried at my senior prom and a plaster pig I won at a carnival when I was 12 years old.

"I'm not complaining," I said, as I dug out the crimping iron which had belonged to my grandmother, "but I thought we were going to dispense with some of these things."

"Does this have some sentimental value?" he asked, dusting off a yellowed newspaper I'd placed in my Save box.

"That just has our wedding announcement in it, that's all," I sneered.

"But isn't that what this bundle is?" he asked. "You have 20 papers with our wedding announcement."

I ignored him, as I idly flipped a ragged felt pennant into the Throw Away box. "I got that in Albany, N.Y., one summer when I was a kid!" he cried. He pressed it fondly against his knee. "It was the year I almost blew my thumb off with a firecracker."

"Well, anything that brings back such fond memories..."

"And look here!" he exclaimed, holding up the matted palm leaves we'd brought back from our first vacation. "I married a woman with absolutely no romance in her soul!"

At least he married a woman who knows when she has been beaten at her own game. I quietly untangled the string of torn Japanese lanterns he had had for his confirmation party from the pair of pink gloves my mother had worn to a dance in Indianapolis the night Herbert Hoover was elected while he patiently relabeled all the boxes. SAVE!

### Guest Editorial

CHRISTIAN SCIENCE MONITOR: Sweet Note. — We have always liked stories of secret millionaires who, when refused lodging in a hotel, walk out and buy the establishment lock, stock, and barrel. We were therefore particularly amused at reading the story of Jim Graham, an 18-year-old English lad.

Although he apparently has had little or no formal musical training, Jim has been strongly drawn to music. His first hope and ambition was to be a member of the local school choir. Alas, this ambition came to naught. When Jim stood up to sing it was found that he persistently flatted his notes, and so was gently bounced from the choir.

Ah, but sweet are the uses of such gentle retribution, and effective the uses of such hard word. Not to be robbed of a musical career, Jim went to the local public library, drew out books on music, and taught himself to write music. The result? He has now amazed English music critics and experts by writing a full orchestral symphony. Furthermore, the symphony has been chosen by Britain's Royal College of Music for a premier performance in the very town where he failed to make the choir.

It would be hard to think of a more Walter Mittyish end to a tale.

All of the former presidents, with the exception of George Washington, were still living when John Quincy Adams was inaugurated — John Adams, Jefferson, Madison and Monroe.

DEAR POLLY—Mrs. B. H. who cannot get rid of ants should split a fresh cucumber lengthwise and place it under the sink in the kitchen, in the bathroom or wherever the ants are crawling. Even after the cucumber shrivels it is effective. I was skeptical when my plumber suggested this but it has really worked for me. No more ants!—MRS. E. B.

DEAR POLLY—Mrs. B. H. will find that a safe way to get rid of ants is to sprinkle cinnamon across the path where they seem to be entering. I have heard that cinnamon burns their feet but, regardless of what it does, it works.—ROSALIND

DEAR POLLY—Mrs. B. H. might try sprinkling talcum powder around to get rid of ants. This will not harm children or pets.—MRS. J. F.

DEAR POLLY—Mrs. B. H. should sprinkle ground cloves in corners and along the walls where she has ants. If she knows where they enter, sprinkle it generously along their trail right outside. This also is good to put in cupboards and I put it under the shelf paper every time I change it. Safe in a house with children or animals.—MRS. D. E. M.

DEAR POLLY—I made attractive shadow boxes for my daughter's dolls out of desk drawers. The insides of the drawers were painted pale pink and the outsides a deeper shade of pink. The drawers were hung in a group, vertically, as they are narrow, deep and long. They are ideal for standing dolls. For decorative purposes, the metal drawer pulls were left in their original condition but they could have been painted or removed and then the holes filled. Now the boys are begging for a set for their room.—VESTA

# Sox Stop Kaycee; Cards Tumble, 7-6

By THE ASSOCIATED PRESS

The Kansas City Royals passed up a chance to record their first sweep of a four-game series every Sunday when their pitching collapsed and they lost to the Chicago White Sox 10-5. The St. Louis Cardinals continued their losing ways by bowing to the Pittsburgh Pirates 7-6 in 10 innings.

After beating the White Sox three straight, twice by shutouts, the Royals were no match for Chicago Sunday. The White Sox jumped on Dick Drago, 6-6, for two runs in the first.

After Bob Oliver's three-run homer in the third put the Royals ahead 3-2, Chicago broke loose for two runs in the seventh, two in the eighth and four in the ninth.

Kansas City picked up two

runs in the last of the ninth on singles by Ed Kirkpatrick and Pat Kelly, an error, Cookie Rojas' grounder and Amos Otis' single.

Al Oliver's leadoff homer in the 10th inning broke a 4-4 tie against the Cardinals and the Pirates went on to their victory. Pittsburgh added two more in the 10th on a triple by Manny Sanguillen, a walk and RBI singles by John Jeter and Matty Alou.

St. Louis bounced back for two runs in the bottom of the 10th on singles by Mike Shannon, Lou Brock and Vic Davalillo and an error before Bruce Dal Canton, third pitcher of the inning, got Richie Allen on a grounder.

The Cardinals have lost seven straight for their longest losing

streak since 1966 and second longest since 1956.

No games are scheduled to-night because of the All-Star game break.

Nicklaus carded an even par 72 for the playoff round on the 6,951-yard layout. Sanders finished with a 73.

Nicklaus earned \$12,600, but, as usual with major championships, the benefits will be much greater. Nicklaus, one of the few professionals with victories in each of the world's four major tournaments, last won the British Open at Muirhead in 1966. His last major championship was the U.S. Open in 1967. He also has won the Masters and the PGA, other jewels of golf's Quadruple Crown.

Sanders, with career earnings of over a half-million dollars, finished 64th on the money list for the U.S. tour in 1969 and hasn't won in three years. A colorful dresser who's always ready with a wisecrack or quip, Sanders had to qualify for this year's British Open, which attracted the strongest international field in its 110-year history.

He has never won a major championship and Sunday's defeat was a bitter cup of tea because he has been runnerup twice in the U.S. Open, once in the PGA, and also in the 1966 British Open won by Nicklaus.

Lee Trevino, the Mexican-American chatterbox from Texas who led the first two rounds, finished in a tie for third Saturday with South African Harold Henning with 72-hole scores of 285, two strokes higher than the five-under par 283s carded by Nicklaus and Sanders.

Tony Jacklin, the defending champion from England and winner of this year's U.S. Open, had a 286, followed by Neil Coles and Peter Oosterhuis, both of England, at 287.

Finishing behind Whisler in the feature were Terry Bivins, Don Conners and Jim Hager.

BULLETIN

GARDENA, Calif. — Defending 100-mile stock car champion A. J. Foyt of last year's United States Auto Club event at the Missouri State Fairgrounds has been inked by promoter J. C. Agajanian of Gardena, Calif. for the July 25 100-mile race on the Fairgrounds' one-mile oval.

The 25-year-old, five-time national driving champion of USAC will be looking for his second straight win on the track.

He'll pilot a 1970 Ford Torino, with which he has scored wins so far this year at Phoenix, Ariz., Indianapolis, Ind. and Irish Hills, Mich.; all were paved ovals.

In his only other stock car start of the young season, he finished second.

# Fight Sparks Bosox Win; Tony Remembers '70 Hit

By HERSCHEL NISSENSEN

Tony Conigliaro and Billy C. hit a home run in the second inning that started the Boston Red Sox to an 8-2 victory. They also won the opener 6-2.

"I couldn't think of anything else but to go and get him," said Tony C., who was nearly blinded when struck in the face by a pitch from California's Jack Hamilton in August 1967 and didn't return to action until last season. "There was nothing else I could do."

Sunday's outburst was an aftermath of a July 4 game in

which Lasher knocked Conigliaro down with a pitch and then was quoted as saying, "Tell Tony C. he better be a little careful the next time he faces me because he just may get a little jammed."

"He surprised me twice," Lasher said Sunday. "First, Tony surprised me when he came out to the mound. So I got ready for him. But then he surprised me with that kick. Before I could do anything, Carl Yastrzemski grabbed me and pinned my arms to my side."

Soar absolved Lasher of deliberately throwing at Conigliaro.

"The pitch was inside, but it wasn't thrown at Tony," the umpire said.

Tom Satriano and John Kennedy also homered for the Red Sox in the nightcap while Tony C. and Rico Petrocelli connected in the first game. Duke Sims, Tony Horton and Ted Uhlaender cracked home runs for the Indians, who fell into last place in the American League East.

Washington beat the New York Yankees 7-3.

Elsewhere in the AL, Baltimore whipped Detroit 13-3 after the Tigers took the opener 7-3. California downed Minnesota 6-2, Oakland edged Milwaukee 4-3 but lost the second game 2-1 and the Chicago White Sox battered Kansas City 10-5.

Mickey Stanley, Bill Freehan and Al Kaline belted Detroit homers as the Tigers rocked Dave McNally for seven runs in the first three innings of their opening game. But the Orioles walloped three homers of their own — by Boog Powell, Ellie Hendricks and Merv Rettenmund — and shelved Denny McLain, 0-2, and two relievers for seven runs in the sixth inning of the nightcap to maintain their six-game bulge over the Tigers in the AL East.

The Yankees fell seven games behind Baltimore when Washington rocked Mel Stottlemyre for five runs in the first two in-

nings and breezed behind Jim Hannan. Del Unser stroked a bases-loaded single as the Senators scored four times in the first inning and Paul Casanova homered in the fifth. Ron Hansen homered for New York.

Minnesota grabbed a 2-0 lead over the Angels on Harmon Killebrew's first-inning homer, his 26th. But California shelled Jim Perry for four runs in the fourth on Roger Repoz' triple, Jim Fregosi's single, a walk, Jim Spencer's single and Ken McMullen's two-run double. The Angels added two more in the fifth on a walk, Fregosi's triple and a single by Alex Johnson and pulled within five games of the Twins in the AL West.

Don Mincher's second homer of the game tied the score in the ninth inning and Oakland edged Milwaukee in their opener when pinch hitter John Donaldson singled home the winning run. Gerry McNertney and Dave May homered for the Brewers.

After owner Charles O. Finley gave manager John McNamara a vote of confidence in an unusual between-games news conference, the A's promptly lost the nightcap to Lew Krausse's six-hitter. Tommy Harper homered for the Brewers. Bert Campaneris for Oakland.

Luis Aparicio doubled home the go-ahead run in the seventh and Ken Berry shocked a three-run double in the ninth as the White Sox outslugged the Royals despite a three-run homer by the losers' Bob Oliver.

# Can-Am Race To McLarens

WATKINS GLEN, N.Y. (AP) — The British-based team McLaren is to the rich Canadian-American auto road racing series what the New York Yankees used to be to baseball.

"If any car-driver combination ever beats them, it will provide the biggest upheaval in recent motorsports history," a 20-year observer of the sport commented Sunday.

New Zealander Denis Hulme had just driven one of the bright orange McLaren-Chevrolets to victory in the third Can-Am of the season a 200-miler over the 2.3-mile Grand Prix circuit at Watkins Glen.

It was the 16th straight win for the McLarens and their 22nd in 25 starts in the million dollar series over a three-year period.

Furthermore, Hulme made it look even easier than in most of the previous races. He got the jump at the start and never was threatened as he drove routinely to his first victory of the season.

New teammate Dan Gurney of Santa Ana, Calif., had won the other two starts beginning with the season opener June 14.

In other auto races Sunday,

## Ernie Buso Sets Pace But Falters

MARSHALL — Eddie Leavitt of Kearney, Mo., copped the feature event at Sportsman's Speedway in Marshall Friday night.

Ernie Buso of Sedalia, who set the pace for the field in the time trials, started on the pole, but could not hold onto the lead.

During the last few laps winner Leavitt, Tom Corbin, Jay Lyle, Roy Hibbard and Roy Cary all got by the Sedalia pilot to finish ahead of him in the feature.

Heat races were won by Buso, Jackie Gibson, Micky Whipkins and Ken Haltman.

Jay Lyle of Warrensburg won the 'A' trophy dash ahead of Buso, Corbin and Leavitt.

The 'B' feature was copped by Jack Hunt, who took the checker in front of Jackie Gibson of Raytown, Jim Braden of Kansas City and Roy Comstock of Versailles.

Al Baldus won the 'B' trophy dash; second went to Jack Hunt.

# Beman's Decision Pays Big With Open Victory

MILWAUKEE (AP)—A confident Deane Beman withdrew from the British Open to play at Milwaukee because of the warm weather and a chance to get in more practice.

"I was happy about my decision before," he said Sunday, after winning the \$110,000 Greater Milwaukee Open golf tournament. "Now I'm elated."

The 32-year-old Beman fired a 12-under-par 276 to capture the \$22,000 first place check.

Three strokes back were Don Massenaole, Dick Crawford and Ted Hayes, all tied at 279.

"I had an exemption and had

## Expect Long Ball in Star Game

CINCINNATI (AP) — A battery of National League's biggest guns, led by hometown howitzers Tony Perez and Johnny Bench, should put American League pitching and the fences of Riverfront Stadium to a severe test in Tuesday night's 41st All-Star Game.

National League Manager Gil Hodges and American League skipper Earl Weaver were to announce their batting orders for the mid-season classic today, and it was anticipated that right-handers Tom Seaver, 14-5, of Hodges' New York Mets and Jim Palmer, 12-6, of Weaver's Baltimore Orioles would be named the opposing starting pitchers.

The other NL starters are first baseman Richie Allen of St. Louis, second baseman Glen Beckert and shortstop Don Jesinger of the Chicago Cubs, third baseman Perez and catcher Bench of Cincinnati and outfielders Hank Aaron and Rico Carly of Atlanta and Willie Mays of San Francisco.

Starting for the AL will be first baseman Boog Powell and second baseman Dave Johnson of Baltimore, shortstop Luis Aparicio of the Chicago White Sox, third baseman Harmon Killebrew of Minnesota, catcher Bill

Freehan of Detroit and outfielders Carl Yastrzemski of Boston, Frank Howard of Washington and Frank Robinson of the Orioles.

The pitchers, who dominated All-Star play for three consecutive years until Willie McCovey and Bench powered the Nationals to a 9-3 romp at Washington last July in a game which produced five home runs, will have their work cut out for them again this time.

Each of the starting lineups is six-deep in long ball hitters, with the Nationals showing a 151-133 advantage in homers to date this season.

Perez and Bench are 1-2 in the majors with 29 and 28 homers, respectively. Allen, with 25, Aaron, 24, Carly, 23, and Mays, 19, complete the NL big six.

Mays, a .343 hitter in 20 previous showings whose 67 at-bats 20 runs scored and 23 hits are records for the classic, has hit three All-Star homers.

Perez, Bench and Allen have socked one apiece. Aaron has failed to connect in 18 previous games. Carly will be making his first All-Star appearance.

Killebrew has smacked 26

American League homers this season, two more than Howard. Powell has 23, Yastrzemski 21, Frank Robinson 17 and Freehan 13. Killebrew has hit two in All-Star competition. Howard, Robinson and Freehan one each.

Feeling perhaps a little out of place alongside all the big swingers will be Johnson, with six homers, Aparicio, with three Beckert, with two, and Kessinger, with just one this year.

But they might note that the first Cincinnati player to unload a homer in Riverfront Stadium, a symmetrical park with 330-foot distances down each foul line and a 404-foot line to straightaway center field, was neither Perez, nor Bench, nor any of the Reds' other thumpers. Little Tommy Helms did the honors, and it was his first homer since the first week of the 1969 season.

While pitchers on both sides try to keep the ball in the park Tuesday night, the National Leaguers will be putting a perfect seven-year defensive record on the line . . . and on the lightning-fast artificial turf that blankets the Reds' new park.

The Nationals haven't made

an error since 1962, when they dropped a 9-4 decision. The American League hasn't won an All-Star Game since then, and the Nationals are 7-5 favorites to make it eight in a row.

The National League leads the series 22-17, with one game ending in a tie.

A crowd of over 51,000 is expected for the 8:15 p.m. EDT game, to be televised nationally by NBC.

Sunday, Hodges named Joe Morgan of Houston to replace Atlanta's Felix Millan as a backup second baseman on the NL squad. Millan was forced to bow out after suffering bruised fingers on his right hand in a recent game.

Bob Bailey, who has 19 hits in his last 38 at-bats, tied it for the Expos at 3-3 with his 11th homer in the eighth and Montreal won it when Ray Sadecki committed a two-out error in the ninth and then wild pitched the tie-breaking run home.

Al Oliver's leadoff homer in the 10th and RBI singles by John Jeter and Matty Alou gave reliever Dave Giusti a 7-0 record and the Pirates' 17th victory in 21 games and a four-game sweep of St. Louis, which has cost seven in a row.

## Dr. Pepper Splits Tilts With International Shoe

The Dr. Pepper softball team split a doubleheader with International Shoe of Marshall Sunday night at Housel Park.

Marshall jumped out in front in the top of the first with three runs, while Dr. Pepper countered with one in the bottom of the frame.

The teams battled to a tie by the sixth, when the locals chased across four runs to tie the game, 9-9.

Neither team could score before the regulation seven innings were completed.

For the next three innings, both were held scoreless, but in the top of the 10th International Shoe chased across two runs and took the lead, 11-9. Dr. Pepper could not get any tallies in the bottom of the 10th and was tagged with the loss.

In the second game, Dr. Pepper and Marshall both netted two runs each in the first.

By the top of the fifth Marshall had mounted a 7-2 lead, but Dr. Pepper roared back for six runs in the bottom of the fifth and hung on for an 8-7 win.

Hugh James, who relieved Ronnie Landrith in the top of

the fifth, was credited with the win, while Carol Deal took the loss. Deal was the winner in the first contest; Jim Werneke was tagged with the loss.

Dr. Pepper is not scheduled for action again until Sunday night, when the tangle with a team from Kansas City, Kan. at Housel Park.

# Expos Top N.Y. Mets Once Again

By ED SCHUYLER JR.  
Associated Press Sports Writer

Claude Raymond had a chance to be heard instead of seen this season. The New York Mets wish he had taken it, but the Montreal Expos are glad he's saving his voice among other things.

One other thing was a 5-3 win over the New York Mets.

It was the third straight save — one in each of the victories over the Mets — and his 17th of the season for Raymond, who turned down a chance to retire and do the French language broadcasts for the Expos this year.

New York's loss left the Mets 1 1/2 games behind first-place Pittsburgh in the National League East. The Pirates beat St. Louis 7-6 in 10 innings but lost pitcher Steve Blass with a cracked pitching elbow on the eve of the annual All-Star Game break.

Houston edged San Francisco 8-7, Cincinnati nipped Atlanta 6-5, San Diego took Los Angeles 4-1 and the Chicago Cubs trounced Philadelphia 10-2.

The 33-year-old Raymond, in his 12th major league season, said that some Montreal writers in spring training thought he was finished and was being kept only because he's French-Canadian.

"That really hurt me," the relief ace said Sunday. "I worked a little harder and I've been having the best year I ever had."

The veteran right-hander's 3-5 record is overshadowed by his 17 saves. The rest of the Montreal staff has a total of two saves.

Bob Bailey, who has 19 hits in his last 38 at-bats, tied it for the Expos at 3-3 with his 11th homer in the eighth and Montreal won it when Ray Sadecki committed a two-out error in the ninth and then wild pitched the tie-breaking run home.

Al Oliver's leadoff homer in the 10th and RBI singles by John Jeter and Matty Alou gave reliever Dave Giusti a 7-0 record and the Pirates' 17th victory in 21 games and a four-game sweep of St. Louis, which has cost seven in a row.

Blass was hit by a liner from the bat of Joe Torre in the second inning, and the right-hander

is expected to be out for three weeks.

Jim Wynn, Bob Watson and Doug Rader delivered ninth-inning, RBI singles to lift Houston over San Francisco, which had taken a 7-5 lead with five runs in the eighth and one in the ninth.

## Surf Club Participates During Meet

JEFFERSON CITY — Twenty-four swimmers from the Surf Club of Sedalia participated in the Missouri Valley AAU Long Course Junior Olympics and "A" Invitational Swimming Meet held Saturday and Sunday in Jefferson City.

The two day meet drew 15 swim clubs from the Kansas, Oklahoma and Missouri area.

Jo Ann Maxwell was the top scorer for the Surf Club by virtue of second place finishes in the 200-meter medley and 100-meter freestyle and a third place in the 50-meter freestyle.

Pat Curry finished fifth in the senior boys in the 50-meter freestyle, 50-meter backstroke and 100-meter backstroke.

Diane Cordy took fifth in the girls intermediate division in the 50-meter breaststroke and sixth in the 100-meter backstroke and breaststroke.

The junior girls relay teams composed of Kathy Anderson, Susan Glass, Susan Stoll, Lisa Jensen and Lori Gann placed third in the medley and freestyle relays.

The intermediate girls team of Debbie Thompson, Diane Cordy, Lisa Gann, Tracey Curry and Martha Hogan took fifth in the medley and freestyle relays.

Other swimmers competing were David Stoll, Philip Dow and Steve Glass in the distance events; Jack Beaudette, Tony Beaudette, Gary Maxwell, Brian Beaudette, Bill Rabourn, Colleen Curry, Caroline Glass and Krista Mucke.

The Surf Club swim team will journey to Columbia next Saturday for a mid-Missouri closed league meet.

## Extension Is Sought For GI Home Loans

WASHINGTON (AP) — The deadline for World War II GIs to apply for Veterans Administration home loan guarantees expires July 25 but Congress is moving to save and perhaps expand the program.

Under bills being considered, Congress may reopen the program to millions who passed it up by knocking out the eligibility deadline for veterans of World War II as well as GIs who served in Korea, the post-Korea era and Vietnam.

Several such bills have been introduced and the Senate has held hearings on one sponsored by Sen. Alan Cranston, D-Calif., and backed by the White House.

The Senate bill, as it seems to be shaping up, would knock out all deadlines—present and future—on GI home loans. Several bills are in the House Veterans Affairs Committee, which will hold hearings this week, including one by Chairman Olin E. Teague, D-Tex., to knock out the deadline for those now still eligible.

At present about 1.4 million World War II veterans remain eligible. Eligibility has expired already for many others who did not use the GI bill to buy homes: About 5.5 million World War II veterans used the benefit.

Eligible veterans of World War II, Korea, post-Korea service and Vietnam may get home loans from commercial lenders guaranteed up to \$12,500, but

there's no limit on how big the loan may be as there once was. The VA also makes direct loans in some areas where commercial loan money is scarce.

Interest may not be over 8½ per cent, the same limit as FHA, but the government has authority to raise this to match the money market. This open-ended authority expires in October but a housing bill to be considered in Senate-House conference this week would extend the authority to October 1971.

Under current law, eligibility for all veterans normally expires 10 years after discharge from active duty plus an extra one year for each three months of active duty.

Regardless of that, the deadline for Korean veterans is Jan. 3, 1975, for post-Korean veterans March 3, 1976, with special extensions for those disabled in service.

Widows of men who died on active duty are eligible.

A VA official said the applications for home loans by World War II veterans are coming in now "only in dribbles" since most who want homes or could afford them have purchased them or have passed the age when they want to own a home.

Korean war veterans are still buying homes but the biggest rush is by post-Korean veterans. Age and the tight money market have held down the rush by Vietnam veterans.

## Wichita Fighting Economic Doldrum

WICHITA, Kan. (AP) — Bob McQuiston says he's lucky. His wife has a job in a hospital, only one of his three children still is home and he had a little money saved.

"But I can guarantee you it's getting critical for some of these younger fellows who lived from paycheck to paycheck," the 45-year-old McQuiston said. "It's getting critical for me, and I was real lucky. I had managed to save a little although a very little."

McQuiston is one of about 14,000 men out of work in Wichita because of layoffs, primarily in the aircraft industry.

The Boeing Co., which employed 37,000 workers here in 1957 at the peak of aircraft construction, now has 6,000 workers on its payroll and doesn't foresee taking any employees back this year.

Boeing's work force is down 3,400 since January, the result of fewer military and commercial planes being built and loss of the B1 bomber contract in June to North American Aviation of Los Angeles.

Beech Aircraft Corp., Cessna Aircraft Co. and Gates Learjet Corp., while employing smaller forces than Boeing, have also had to lay off workers. Cessna has laid off 1,600, Beech 2,300 and Gates Learjet 300 in the past year.

The resulting pebble effect in the Wichita Economic pool has left Kansas' largest metropolitan area nearly 400,000 people with the third highest unemployment rate in the nation. Statistics disclose 8.8 per cent of the Wichita metropolitan area's labor force is out of work.

Gov. Robert Docking and the Kansas congressional delegation last week persuaded the federal Economic Development Administration to declare the Wichita area a "redevelopment area." Industries here would be eligible for federal grants and loans for expansion and new business.

State officials also are working to get Congress to extend unemployment benefits past the 26-week limit, an action which would go into effect nationwide if Congress approves.

"It's a critical situation, and

we can't wait six months for help," Mayor A. Price Woodard said. "People can starve to death in six months."

McQuiston, who was laid off at Boeing as a firefighter in January after working there 11 years, agrees with Woodard.

"It looks to me like a lot of planning and not much action," McQuiston said of efforts by public officials to alleviate the city's economic plight. "I feel like they're just about six months too late."

McQuiston said he remains optimistic "something will turn up," but concedes he has little hope a callback by Boeing any time soon.

Boeing won a \$2.2 billion contract last week to build 40 to 50 eight-engine planes to become part of the Air Force airborne warning and control system. But the economic effect won't be felt here until 1972, or later.

"I've got too much invested in my home," McQuiston said. "And Wichita is my home. I'd sure hate to have to pick up and leave, and I think most of these fellows feel the same way."

McQuiston said he tried to find another job to tide him over but "work is impossible to get." "I'd sure like to go back to Boeing because of the benefits," he said. "I've worked my way up to four weeks' vacation and the pension is pretty good. I register out there each 90 days to keep up those benefits."

For Bob McQuiston, and for a lot of the others, welfare is a hard word to say. He'd rather not think about it, and hopes he won't have to as long as his wife is working at the hospital — and "perhaps something will turn up."

"I certainly wouldn't relish going on welfare," he said, "but I would think some of these boys are going to be forced onto it, and maybe soon. People that have several children and school starting in a couple months are going to be hurting."

"We had no debts except our home, and we've been able to keep up our mortgage payments. I've heard of people not able to make their payments."

"We are very fortunate."

### Vice President Interested In Reporting Job

WASHINGTON (AP) — Vice President Spiro T. Agnew has confessed an ambition to one day become a television commentator or a newspaper columnist.

Agnew, who has caustically criticized some current practitioners of both callings, said either job would be stimulating.

The vice president was asked in an Associated Press interview what he might do if he left public office.

"That's a very hard question because I said, only half jokingly, in response to a similar question a couple of months ago, one of the things that would really interest me would be to be a commentator or a columnist or someone who is involved in the media in some way."

"Now this may sound strange coming from me, but it is a very stimulating thing to be able to write your opinions of the course of American life over a period of time."

Termites generally attack only dead wood or wood products, but a species found in Panama carries fungi with it to kill trees so the insects can eat them.

## Suggests Bonus As Army Appeal

WASHINGTON (AP) — The Pentagon is considering special cash bonuses to lure young military veterans into the National Guard and the reserves.

Officials declined to say how big such bonuses might be, but one authority said "they'd be enough for a young fella to make a down payment on a car."

Some key authorities believe bonuses, along with other benefit inducements, may be necessary to keep the guard and reserve at full strength as draft calls decline.

Officials also view this approach—never before tried with the reserves—as a way to build up the combat readiness of the backup forces by attracting men with service experience.

If approved, the bonuses would be offered only to what are called "prior service personnel" for both enlistment and re-enlistment in the guard or reserve.

Legislation would be required to authorize such payments.

Secretary of Defense Melvin R. Laird has stressed his belief that the nation's nearly one million man guard-reserve structure will become increasingly important in the coming years as the size of U.S. regular forces is cut.

The biggest problem facing the Pentagon in maintaining the strength of the backup forces centers in the Army National Guard and Army reserve.

## Search Resumes For Lost Divers

JOPLIN, Mo. (AP)—Old Circle Sink has claimed the lives of three more trained scuba divers.

A search was to be resumed today for the bodies of Nick A. Buento, 27, and Dave Witherpoon, 17.

The body of Paul Bartlett, 16, was recovered Sunday evening about six hours after they entered the water.

The three were among 10 members of the Wichita, Kan., Diver and Ski Club who traveled 180 miles to plumb the depths of Circle Sink.

The cold, dark, gray-green water of Circle Sink has enticed other divers to their deaths. And it is known as a favorite disposal spot for stolen cars and anything else that people never want to see again.

Circle Sink originally was an open shaft lead and zinc mine, part of a complex abandoned 26 years ago. The mine quickly filled with water. Sides of the shaft collapsed and surface ground subsided, forming a large pond at least 250 feet deep.

Divers say that down along the sloping east face of the shaft are the grotto openings of horizontal tunnels, or old mine drifts with rotting timbers still in place. Searchers for bodies say the timbers are likely to fall at a touch, and they speculate that some victims have been trapped that way.

When the Wichita group entered the water Sunday each carried about 18 minutes of oxygen in his aqua-lungs.

When Bartlett, Buento and Witherpoon failed to come up, the club sent a call to Wichita for Paul Humann, lawyer and expert scuba diver.

These elements, totaling some 660,000 men, are filled to a substantial extent now with young men who chose to duck the draft by spending six to 10 months on active duty and the balance of six years in the guard or reserve.

As the draft takes fewer young men, the incentive to sign up in the guard and reserve is diminishing, and a top National Guard official said recently "the days of waiting lists and long backlogs of men waiting to enter the guard appear to be coming to an end."

Laird and his manpower aides face a dilemma on how to strengthen the National Guard and reserve without spending more money. The programs now cost about \$2.5 billion a year.

The various inducements now being considered to enhance guard-reserve strength would not require additional funds, officials said.

The proposed enlistment-re-enlistment bonus would be paid out of funds now used to train the youths who now spend only a few months on active duty and the rest of their obligation in the guard or reserve.

# Sedalia Democrat-Capital Readers: This INTRODUCTORY OFFER brings you

# \$400.00-A-MONTH TAX-FREE CASH

# WHENEVER YOU GO TO THE HOSPITAL

## -Only 25¢ covers your entire family for the first month

- ★ Pays you cash at the rate of \$400.00 a month for each hospital stay... even for life, if necessary.
- ★ Pays in addition to any other companies' coverage you have—including Medicare.

- ★ Pays all cash direct to you (not to doctor or hospital).
- ★ Guaranteed Renewable for Life. National Home guarantees never to cancel your protection no matter how old you become or how many claims you have.

No salesman will call—No medical examination required—No age limit

**ACT NOW—YOUR ENROLLMENT FORM MUST BE MAILED BY MIDNIGHT, THURS., JULY 16, OR IT CANNOT BE ACCEPTED**

ONE out of two families will have someone in the hospital this year! It could be you—or some beloved member of your family—tomorrow...next week...next month. Sad to say, very few families have anywhere near enough coverage to meet today's soaring hospital costs. These costs have doubled in just a few short years. They are expected to double again in the few years ahead.

Stop for a moment. Think how much a long stay in the hospital will cost you or a loved one. How would you ever pay for costly, but necessary, X-rays, doctor bills, drugs and medicines? What would you do if your pay check stopped, but living expenses kept going on the same as ever? The same rent, phone, food, all the day-to-day expenses that never stop.

What is the average breadwinner to do? We believe we have the answer in our National Home plan that...

### Pays you \$400.00-a-month tax-free cash whenever you are hospitalized.

What a blessing it is when you know you have \$400.00 cash coming in every month when you go to the hospital.

Now, this low-cost plan from National Home enables you to enjoy this protection at once. Your introductory rate is just 25¢ for the first month's coverage for your entire family. Then, you may continue at National Home's regular low rates.

### The added protection you NEED!

All benefits of this \$400.00-a-month plan are paid directly to you, in tax-free cash, in addition to whatever you may receive from your insurance with any other company! Use the money as you see fit—for hospital or doctor bills, mortgage or rent payments, to replace savings—or any necessary, but costly, expenses not covered fully by other hospital policies.

Everything costs more these days (need we tell you?) and hospital care is certainly no exception! While 7 out of 8 Americans have some hospital insurance, most have found it does not cover all bills that pile up when sickness or accident strikes. That's why National Home developed this low-cost plan that helps you pay hospital costs or other expenses.

You get your \$400.00-a-month cash—tax-free—as long as you are confined in the hospital. You are covered from the very first day—for as long as you are confined to the hospital—even for life, if necessary! And remember, this National Home policy pays tax-free cash direct to you in addition to whatever you receive from any other protection you carry—Blue Cross, Blue Shield, even Medicare if you're 65 or over.

### We can never cancel your policy!

You can count on this wonderful protection no matter how old you become or how many times you collect from us. Your policy guarantees that we can never cancel your protection for any reason whatsoever. It is Guaranteed Renewable for Life!

And that's not all. Suppose you have a growing family—this policy (NH10-669)...

### Pays you \$240.00-a-month cash whenever any dependent child is hospitalized.

When you choose Coverage for Children, all your dependent, unmarried children from age one month through 18 years are

- PAYS** \$400.00-A-MONTH CASH for each accident or illness... beginning the very first day in the hospital—and continuing for life, if necessary!
- PAYS** \$200.00-A-MONTH CASH for the first three months when you're 65 or over, and a full \$400.00-A-MONTH CASH thereafter—even for life!
- PAYS** \$240.00-A-MONTH CASH if a covered child is hospitalized for injury or illness. And the benefits continue for as long as necessary.
- PAYS** \$1,600.00-A-MONTH CASH when both husband and wife (under age 65) are hospitalized at the same time for accidental injury for as long as both remain in the hospital—even for life!
- PAYS** \$400.00-A-MONTH CASH for a Registered Nurse if your doctor has you hire one within five days following a covered hospital confinement of five days or more.
- PAYS** up to \$2,000.00 CASH for complete accidental loss of limbs or eyesight.

### 65 OR OVER? YOU COLLECT IN ADDITION TO MEDICARE BENEFITS

We have designed this plan as a valuable addition to whatever is paid by Medicare—or health insurance you may have with any other companies. Remember, all checks will be sent directly to you (not to the doctor or hospital), to give you that "extra" help just when you need it most. Use the tax-free cash any way you see fit. In addition to any benefits you may receive from Medicare, this National Home plan pays you at the rate of \$200.00 a month for the first 3 months, and \$400.00 monthly while hospitalized thereafter... even for life, if necessary!

covered, too! What's more, any newborn children you have in the future are covered automatically at the age of one month—at no additional cost to you. And whenever any of your children go to the hospital—for removal of tonsils or appendix, for any illness or injury—this National Home plan pays you at the rate of \$240.00-a-month cash, for as long as necessary.

### Pays you tax-free cash Maternity Benefits, too.

With this plan, you can also collect cash at the rate of \$400.00 a month for every day you are confined to the hospital for pregnancy, childbirth, or even miscarriage. You get this cash, which is yours to use as you see fit, when Coverage for Children and Maternity Benefits have been added to the basic plan. Of course, both parents must be enrolled in this plan for the entire period of pregnancy.

### Pays you up to \$4,800.00 cash for a Registered Nurse at Home.

Here's a wonderful "get well" benefit of this National Home plan: You collect cash benefits at the rate of \$400.00 a month when your doctor has you employ a full-time registered nurse within five days after you come home, following a stay in the hospital of five days or more for which benefits were payable. You are actually paid for every day you were in the hospital—even up to 12 full months!

### Double Cash Accident Benefit.

When you and your insured spouse are hospitalized at the same time for an accidental injury, this National Home plan pays you an EXTRAORDINARY DOUBLE CASH BENEFIT. You receive not \$400.00 but \$800.00 a month. Your spouse receives not \$400.00 but \$800.00 a month. That's \$1,600.00 in all, in cash payments to you every month (when under age 65) starting the day you enter the hospital for as long as you both remain there.

### Pays you up to \$2,000.00 cash for these accidental losses...

The accidental loss of limbs or eyesight can be terrible. But if such loss occurs any time within 90 days of the accident, you collect \$1,000.00 for the complete loss of a hand or a foot or the sight of an eye—and \$2,000.00 for loss of two limbs or the sight of both eyes.

### Waiver of premium benefit.

Should you—the policyowner—be hospitalized for 8 consecutive weeks or more, this National Home plan will PAY ALL PREMIUMS that come due for you and all Covered Members of your family while you are confined to the hospital beyond the initial 8-week period. And your protection continues just the same as if you were paying the premiums yourself. Then, if you leave the hospital and must return for the same condition before you have resumed full normal activities for 90 days, we will again pay any premiums while you are in the hospital—for the total confinement! This means you pay no premiums, yet your full protection remains in force.

### These are the ONLY exclusions!

Your National Home policy covers every kind of sickness or accident except conditions caused by: act of war; any mental disease or disorder; pregnancy, except as provided under the Maternity Benefit provision; and any sickness or injury you had before the Effective Date of your policy... during the first 2 years only.

This last item is a real help if you already have a health problem. If you are sick before you take out this policy, you

will even be covered for that condition after the policy has been in effect for 2 years. Meanwhile, of course, every new condition is covered.

### Nationally known and respected.

This is the kind of outstanding protection you have read about in *Reader's Digest*, *Parents' Magazine*, *National Geographic* and other leading publications. The special plans offered by the National Liberty Corporation group of companies are today helping policyowners in all 50 states—and many foreign countries—paying benefits at the rate of more than \$1,500,000.00 a month. In addition, our Company has a RECOMMENDED rating from *Best's Insurance Reports*, one of the foremost insurance authorities in the nation.

### Fast, reliable claim service when needed most.

You never really know how good a policy is until you have to make a claim. That's why we think you'll be interested in what some of our National Home members have to say. Their comments—quoted below—are typical of the hundreds of expressions of appreciation we receive from policyowners every week...

"Received your check for \$880.00. I appreciate having the money sent directly to me so I could decide how to use it."

NICHOLAS CRISTL, Green Bay, Wis.

"It was wonderful to receive your check for \$555.00. I'm very pleased. It paid real well."

MRS. BESSIE GEISINGER, Kansas City, Mo.

"Everyone should have your coverage. I know I wouldn't be without it."

WALTER TUCKER, Fayetteville, N.C.

### Outstanding Americans like these

#### Recommend this Coverage.

DR. E. STANLEY JONES, internationally known evangelist, author, missionary statesman: "In offering low-cost health insurance by mail, you are rendering a valuable service to thousands of people who have no other opportunity to avail themselves of such protection. It's reassuring to know that policyowners insured by the National Liberty group are receiving more than \$1,500,000.00 a month in benefits."

LT. GEN. W. K. HARRISON, U.S. Army (Retired): "People benefit in many ways when they purchase insurance direct by mail from National Home Life Assurance Company. They save money through lower rates. No salesman calls. And no medical examination is required. I consider it a sensible, economical way to increase one's health protection in these days of mounting hospital and medical costs."

JEROME HINES, leading bass with the Metropolitan Opera Company: "It seems to me that the concept of health insurance by mail is a very sensible one. It's quick, easy and economical. Nobody makes surprise visits to your home to ask personal questions. There's no medical examination. And costly processing charges are eliminated. This means more protection at less cost. I congratulate National Home Life Assurance Company for meeting a real need."

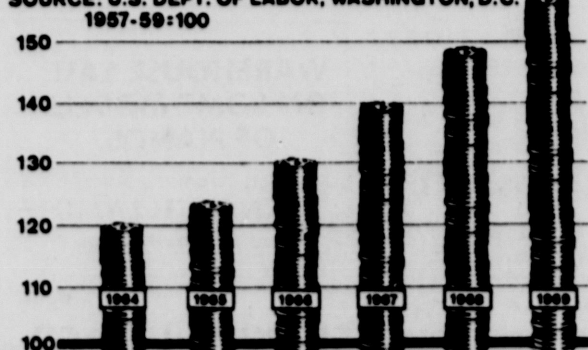

### Why you must act before the date shown on your Enrollment Form—just a few days from today.

Why do we give you so little time to enroll in this plan? Because this is a *guaranteed* enrollment offer, we can open the enrollment only during a limited time period—with a *firm* deadline date for everyone. To provide you with this broad coverage at these rates, we must receive your Enrollment Form during the same period as all the others.

As soon as we receive your Enrollment Form we will rush your policy to you by First Class Mail. When your policy arrives, examine it in the privacy of your own home. It is a very short document and you'll be pleasantly surprised to see there is no fine print. Show it, if you wish, to your doctor, lawyer, insurance agent, or some other trusted advisor.

### Medical Costs Skyrocketing!

SOURCE: U.S. DEPT. OF LABOR, WASHINGTON, D.C.

MEDICAL CARE COSTS rose in September, 1969, to 157.6% of the 1957-59 average from 156.8% a month earlier. These costs are components of the Government consumer price index.

### HERE ARE YOUR LOW RATES.

The following rate chart shows how little it costs after the first month to cover yourself, your spouse and any adult dependents. Naturally, at these low rates, we can issue you only one policy of this type. Each adult, 16 or over, pays the rate shown for his or her age.

Age at Enrollment	Monthly Premium per Adult
16-44	only \$3.45
45-49	only \$3.95
50-54	only \$4.45
55-74	only \$4.95
75-79	only \$5.95
80 and over	only \$6.95

### Only \$1.90 more per month covers all your dependent children...

from the age of one month through 18 years. Newborn children are covered automatically at the age of one month—at no additional cost! And then if you wish, just add 95¢ monthly to that, and you're covered for Maternity Benefits, too!

NOTE: The regular monthly premium shown here (for age at time of enrollment) is the same low premium you will continue to pay; it will not automatically increase as you pass from one age bracket to the next. Once you have enrolled in this National Home plan, your rate can never be changed because of how much or how often you collect from us—or because of advanced age—but only if there is a general rate adjustment, up or down, on all policies of this type in your entire state!

### Act NOW—"Later" May Be Too Late!

Just 25¢ covers you and your family for first month.

TIME IS PRECIOUS! Act quickly. (No salesman will call.) Get your Enrollment Form into the mail today—because once you suffer an accident or sickness, it's TOO LATE to buy protection at any cost. That's why we urge you to act today—before anything unexpected happens.

National Liberty Corporation brings you the *WASHINGTON REPORT* daily over more than 300 stations coast-to-coast

### YOUR QUESTIONS ANSWERED ABOUT THIS NATIONAL HOME PLAN

#### 1. How much will I be paid when I go to the hospital?

You will receive cash at the rate of \$400.00 a month. When you're 65 or over, you collect (in addition to any Medicare benefits) \$200.00 a month for the first 3 months, and \$400.00 monthly while you remain continuously hospitalized thereafter. And you collect cash even if you're in the hospital for only one day.

#### 2. Do you pay me cash when my children go to the hospital?

You collect cash at the rate of \$240.00 a month whenever any of your children (age 1 month through 18 years) go to the hospital—if Coverage for Children is added to the basic plan. And if you have a growing family—as soon as any newborn child is one month old, he, too, is covered—automatically... at no additional cost.

#### 3. Will you pay me cash benefits for pregnancy?

Yes, when Coverage for Children and Maternity Benefits have been added to the basic plan. You collect cash at the rate of \$400.00 a month for pregnancy, childbirth or miscarriage that results in a hospital stay. (Both parents have to be enrolled in this plan for entire pregnancy period.)

#### 4. Are there any other cash benefits I can collect?

There are! If you and your insured spouse are both in an accident and hospitalized at the same time, you receive this DOUBLE CASH BENEFIT: You collect at the rate of \$800.00 a month and your spouse collects at the rate of \$800.00 a month—you receive a total of \$1,600.00-a-month tax-free cash (when under age 65) for as long as you both remain in the hospital. Then, too, if any accident results in the complete loss of limbs or eyesight—even as long as 90 days after the accident—you are paid up to \$2,000.00 cash.

#### 5. Suppose I'm hospitalized for a long time and can't meet my premium payments?

If you—the policyowner—are hospitalized for 8 consecutive weeks or more, this National Home plan will PAY ALL PREMIUMS that come due for you and all Covered Members of your family while you are confined to the hospital beyond the initial 8-week period. You aren't expected to pay us back, either.

#### 6. What do I do when I have a claim?

Whether you have a claim, or just want to ask us a question, don't hesitate to contact us. As a National Home policyowner, you are entitled to prompt, courteous and direct attention at all times... and you will get it.

#### 7. Now tell me what's the "catch"—what doesn't my policy cover?

Get ready for a welcome surprise. Your policy covers everything except conditions caused by: act of war; any mental disease or disorder; pregnancy, except as provided under the Maternity Benefit provision; and any sickness or injury you had before the Effective Date of your policy—but even this last "exclusion" is done away with after you've been a policyowner for only two years. Everything else is definitely covered.

#### 8. What are the requirements to enroll in this National Home plan?

You must not have been refused or had cancelled any health, hospital or life insurance due to reasons of health; and to qualify during this Enrollment Period—you must enroll before midnight of the date shown on the Enrollment Form.

#### 9. Besides saving money—are there any other advantages to joining this plan during this Enrollment Period?

Yes. A very important one is that you don't need to complete a lengthy, detailed application—just the brief Enrollment Form in the corner of this page. Also, during this Enrollment Period there are no extra requirements for eligibility, and no "waivers" or restrictive endorsements can be put on your policy!

#### 10. How do I enroll?

Fill out the brief Enrollment Form and mail it with just 25¢ for the first month's protection for your entire family. Mail to: National Home, Valley Forge, Pa. 19481.

### MONEY-BACK GUARANTEE

We will send your National Home policy by mail. Examine it carefully in the privacy of your own home. Show it, if you wish, to your own insurance agent, doctor, lawyer or other trusted advisor. If you decide, for any reason, that you don't want to continue as a member of this plan, return the policy within 15 days of the date you receive it, and we will promptly refund your money. Meanwhile, you will be fully protected while making your decision!
